Profile

I am a skilled Full Stack Developer with a strong focus on Angular for front-end development, specializing in building dynamic and responsive Single Page Applications. With a solid foundation in back-end technologies such as Node.js and MySQL, I am experienced in creating full-stack solutions that are both scalable and efficient. I have a deep understanding of restful APIs. My goal is to deliver seamless user experiences while maintaining a high level of performance, security, and code quality across the entire stack.
